

Module 2: Vertex Al and MLOps on Vertex Al

Module readings

Here are the assembled readings provided in this module.

- Lesson 1: What is Vertex AI and why does a unified platform matter?
 - o <u>Vertex AI documentation</u>
 - o cloud.google.com/training
- Lesson 2: Introduction to MLOps on Vertex AI
 - o ML Engineering
 - ML metadata artifact types
 - Google Research areas
 - o Deepmind Research
 - o Publication database
 - Towards ML Engineering: A Brief History Of TensorFlow Extended (TFX)
- Lesson 3: How does Vertex AI help with ML workflow, part 1?
 - Vertex Al
 - Vertex Al as a pipeline component
 - Choosing between the Kubeflow Pipelines SDK and TFX
- Lesson 4: How does Vertex AI help with ML workflow, part 2?
 - o Introduction to Vertex Al Model Monitoring
 - o Vertex ML Metadata
 - Introduction to Vertex Al Model Monitoring
 - o Open source TensorBoard
 - Vertex Al TensorBoard
